

Clinical & Research Services Summer Internship

Develop skills for a career in health research!

ANTHC'S Clinical and Research Services program is seeking an intern to assist with:

- on-going studies
- statistical analysis
- survey development and collection
- developing and designing research studies.

The program intern will gain knowledge in:

- research ethics
- health disparities among Alaska Native people
- research grant application processes.

The internship may also include training outside of Anchorage, college credit, manuscript writing and other professional development opportunities.

**Application deadline:
April 15, 2016**

Eligibility Requirements:

- Must be Alaska Native or American Indian
- Must be a college Junior/Senior or recent college graduate
- Must have interest in Health Research or Health Related Careers

**Apply online at
anthc.org/careers**
