7 Generations Environmental Planning for Rural Alaska July 19-21, 2016

The 7G environmental planning process leads to identifying, assessing and developing solutions to community environmental and health concerns. The 7 Generations training is an interactive workshop that introduces participants to a community-based approach for developing local environmental plans. The training is intended for community leaders, tribal environmental program staff, other tribal staff and concerned community members that may be involved in community planning.

Training Location

Alaska Native Tribal Health Consortium
4000 Ambassador Drive - Conference Room 1
Anchorage, Alaska
8:30:am - 5:00pm
