* ANTHC badges will open locked and covered shelters at these locations.

The bike cage in the ANTHC parking garage employees may get a key to the cage from Facilities Maintenance on lower level. For assistance, call extension 2800.

REMINDER: These are shared bike cages and do not stop theft -- they don't stop someone from "borrowing/finding" an ID badge, propping a door open, reaching through and unlocking with a tool, or from taking an unsecure bike. Always use a bike lock that you control and do not store valuables unsecured!
