

ALASKA NATIVE MEDICAL CENTER: HIGHEST QUALITY HEALTH CARE

As an acute, specialty, primary and behavioral health care provider, the Alaska Native Medical Center provides comprehensive medical services to Alaska Native and American Indian people living in the state. The center includes a 173-bed hospital, as well as a full range of medical specialties, primary care services and labs.

The hospital also works in close partnership with Alaska's rural health facilities to support a broad range of health care and related services. As a statewide referral center, ANMC operates both the Quyana House and ANMC Patient Housing facility, which combined, provide 258 rooms for our out-of-town patients and their escorts. These facilities are supported by our Travel Management team who facilitates housing, travel services and Medicaid authorizations.

MISSION: The Alaska Native Medical Center shall fulfill the mission and vision of the Alaska Native Tribal Health Consortium (ANTHC) and Southcentral Foundation (SCF) by working together with the Native community to achieve wellness by providing the highest quality health services for all Alaska Natives.

HISTORY: In the 1950s, the Bureau of Indian Affairs (later transferred to the Indian Health Service) began providing health care for Alaska Native people. By 1999, ANMC's transition to Alaska Native ownership was completed with its transfer to ANTHC and SCF. Today, ANMC has become a world leader in health care where advanced technology meets patient and family-centered care. ANMC is also a gathering place where longtime friends celebrate life events, learn ways to maintain wellness and simply visit one another.

RECOGNITION AND AWARDS

Level II Adult and Pediatric Trauma Center

Providing the highest level of trauma care in Alaska, ANMC serves as the referral center for all Tribal health facilities in the state.

Designated Baby-Friendly birth facility

The initiative encourages and recognizes hospitals and birthing centers that offer an optimal level of care for breastfeeding mothers and their babies.

Joint Commission Accreditation

This accreditation and certification is recognized nationwide as a symbol of quality that reflects adherence to the highest hospital performance standards.

MILESTONES AND HONORS
