

## ANCSA Partnership Group Meeting

April 26, 2024

### Community Feedback Exercise

1. What do you find helpful on the new ANTHC website?
  - a. The request for assistance contact  
Thank you for your feedback.
  - b. All of the information available and how it is laid out. Recommend highlighting the "Request ANTHC Assistance" tile to be highlighted differently from the other tiles  
The website has been updated to highlight the "Request ANTHC Assistance" tile.
  - c. Clearly Organized  
Thank you for your feedback.
  - d. Well formatted  
Thank you for your feedback.
  - e. Helpful  
Thank you for your feedback.
  - f. Lots of good info  
Thank you for your feedback.
  
2. What do you find least helpful on the new ANTHC website?
  - a. I do not see anything that would be least helpful. It is user-friendly.  
Thank you for your feedback.
  - b. Condense the info but provide links  
We are currently looking at ways to condense the information including making the timeline under "Learn more" a PDF document instead of HTML.
  - c. Connection to history for impacts to individual tribes – intertribal consortia connected to CS  
We were unsure if we understood this comment. If this is your comment, please feel free to reach out to Lisa Griswold at [lgriswold@anthc.org](mailto:lgriswold@anthc.org) to explain what you would like to see on the website.
  - d. Potential issues w/ too much data in areas w/ slower internet speeds  
We are currently looking at ways to cut down the data necessary to load the website including shrinking some of embedded maps.
  
3. What else do you wish was on the ANTHC website?
  - a. different regional consortia's or Tribal Village TRP of contaminated sites list (if it is not on ANTHC's list.)  
Some maps show where each Tribal Response Programs (TRPs) are located. We can also link to each programs website, but adding all of their site information would be likely to cumbersome to house on our website as well. We are currently working on the website to add the TRP map and TRP website information
  - b. Connection to EPA proposal process

The EPA is currently working on a companion website to its current website that provides information on the process. When it is complete, ANTHC will link to this website.

- c. Websites to find ICs, patents, and land conveyances  
We are currently looking at adding this information.
  - d. Connection to ATSDR and public health contaminants  
We are currently looking at adding this information.
  - e. How to protect family health in light of contaminants  
We are currently looking at how to best add this information.
  - f. Procurement process. What is the process? Walk me through it  
We are currently looking at how to best add this information, or if we will be able to link to an EPA website.
  - g. Commonly used terms and acronyms  
We are currently working on developing this document. When it is complete, we will add it to the website.
  - h. Some of us are not computer experts  
Thank you for your feedback. We will continue to evaluate the site for its usability. Please contact Lisa Griswold at [lgriswold@anthc.org](mailto:lgriswold@anthc.org) if you have further feedback on how the site could be easier to use.
4. Is the new fact sheet helpful or overwhelming?
- a. I think it is helpful but can be overwhelming if someone just picks it up without too much background on it. I think putting an ANTHC contact near the top will be helpful to the reader  
The fact sheet has been edited to include a cover sheet that explains the purpose of the document, how to use it, and who to contact for more information.
  - b. Excellent!  
Thank you for your feedback.
  - c. The fact sheet is super helpful w/ an overview of whats available  
Thank you for your feedback.
5. What topics would you like us to cover in the next ANCSA Partnership Group meeting?
- a. ANCSA site specific coverages, clean-up eligible policy on how can the policy be changed to make the restricted lands/corp lands be eligible that are adjacent to contaminated land  
This topic will not be ready to be covered at the July 17, 2024 ANCSA Partnership Group Meeting, but may be possible for the October 2024 or January 2025 ANCSA PG meeting. Please stay tuned for that presentation.
  - b. Lots of villages have no running water maybe priority?  
ANTHC Contaminated Sites contacted ANTHC's construction services program, procurement and contracting to get feedback on what communities are currently without running water, who is scheduled to get running water shortly, and who is being selected for program design for future construction. We will have that information by the next ANCSA PG meeting on July 17, 2024.

- c. Maybe provide tribes/communities who have benefitted from this work to share  
This topic will not be ready to be covered at the July 17, 2024 ANCSA Partnership Group Meeting, but may be possible for the October 2024 or January 2025 ANCSA PG meeting. Please stay tuned for that presentation.
- d. EPA to present on eligibility and proposal development tools and website updates  
This topic has been selected as part of the feature of the July 17, 2024, ANCSA Partnership Group meeting.
- e. Training and  
I apologize, but we could not make out the rest of what was on this sticky note. Please contact Lisa Griswold at [lgriswold@anthc.org](mailto:lgriswold@anthc.org) if this was your comment to clarify what the second part of the comment was.
- f. How do I fill out a funding request for ANCSA funds? Purpose of narrative, work plan, and budget  
This topic has been selected to be part of the feature of the July 17, 2024, ANCSA Partnership Group meeting.
- g. Case study exercise for verification  
This topic will not be ready to be covered at the July 17, 2024, ANCSA Partnership Group Meeting, but may be possible for the October 2024 or January 2025 ANCSA PG meeting. Please stay tuned for that presentation.
