

HCV Simplified Treatment For AK Tribal Health System

FIB-4
<https://www.hepatitisc.uw.edu/page/clinical-calculators/fib-4>

Calculate FIB-4

FIB-4 < 1.45
No Cirrhosis

FIB-4 1.45-3.25
Indeterminate Fibrosis

FIB-4 > 3.25 Cirrhosis
 All cirrhotic patients should be referred to Liver Clinic for cirrhosis evaluation and follow up annually in Liver Clinic.
 Treatment process as identified below:

Obtain FibroScan (Anchorage area) or serum fibrosis test (rural/remote clinics). Follow link in green, then proceed with algorithm as above based on whether patient has **No Cirrhosis** or **Cirrhosis**.

[Fibrosis Interpretation](#)

Calculate CTP score
<https://www.hepatitisc.uw.edu/page/clinical-calculators/ctp>

CTP ≤ 6

CTP > 6

Proceed with Simplified Treatment Step 2

Liver Clinic will provide treatment recommendations
 Note: This can be done by consult. PCP can treat patients with compensated cirrhosis, if comfortable.

Liver Clinic will treat persons with decompensated cirrhosis
