

Meet your Institutional Environmental Health Consultants

Forrest Collins, REHS, CSP

Forrest served as a bioenvironmental engineering technician in the U.S. Air Force, and has worked in private manufacturing, providing environmental, health and safety support. Forrest is a Certified Safety Professional and Registered Environmental Health Specialist.

Forrest can be reached at fcollins@anthc.org

Amberlynn VanDusen, REHS, MSEH

Amber is a LCDR in the U.S. Public Health Service. She has previously served as a fire prevention specialist at a large university and hospital, provided occupational safety and health services to the U.S. Coast Guard and conducted comprehensive sanitation inspections of cruise ships in the CDC's Vessel Sanitation Program. Amber has a Master of Science in Environmental Health and maintains credentialing as a Registered Environmental Health Specialist.

Amber can be reached at aevandusen@anthc.org

Bryan Reed, MPH, CHFM

Bryan has worked in the Alaska Tribal Health system since 2006. He has a background in environmental health, injury prevention and healthcare facilities management where he gained comprehensive understanding of the health care accreditation process. Bryan has a Master's Degree in Public Health and is a Certified Health Care Facility Manager.

Bryan can be reached at bgreed@anthc.org
